EDUCATION

DY Patil University, Navi Mumbai Masters of Computer Application	Jun 2025 – Present
Mumbai University <i>CGPA: 8.55</i> Bachelor of Science in Information Technology, Mumbai	Jun 2022 – Jun 2025
P.T.V.A.'s Sathaye College <i>Stream: Science</i> Higher Secondary Certificate, Mumbai	Jun 2020 – Jun 2022

PROJECTS

DietarySense — Personalized Meal Planner	Nov 2025 – Dec 2025
- Developed a full-stack web application for personalized meal planning based on dietary preferences, allergies, and nutrition goals. - Implemented intelligent recipe filtering, auto-generated meal plans, nutrition tracking, and grocery list generation with real-time data synchronization.	
My Personal Portfolio Website	May 2025 – Jun 2025
- Created a fully responsive personal portfolio to showcase skills, projects, and experience. - Built using HTML, CSS, and JavaScript with sections for skills, resume, project highlights, and an interactive contact form, designed with clean UI and smooth navigation.	
AudioCompanion — Desktop Voice Assistant	Nov 2024 – Jan 2025
- Developed an AI-powered voice assistant for hands-free automation and smart system control. - Built an AI-powered desktop voice assistant with 20+ automation features using Vosk, pytsx3, and web automation including app control, YouTube automation, news, messaging, scheduling, translation, and focus mode.	

EXPERIENCE

MACHINE LEARNING INTERN <i>CODTECH IT SOLUTIONS</i>	May 2025 – Aug 2025 <i>Online</i>
- Visualized and interpreted decision trees using Scikit-learn for classification tasks. - Applied TF-IDF and Logistic Regression for sentiment analysis on customer reviews. - Built a CNN model using TensorFlow for multi-class image classification. - Developed a collaborative filtering-based recommendation system with performance evaluation.	
MACHINE LEARNING INTERN <i>CODSOFT PVT. LTD.</i>	Jul 2025 – Aug 2025 <i>Online</i>
- Built a movie-genre classifier using TF-IDF with Naive Bayes and Logistic Regression. - Developed a credit card fraud detection model using Decision Tree, Logistic Regression, and Random Forest. - Predicted customer churn using Random Forest and Gradient Boosting. - Created a spam SMS classifier using TF-IDF with Naive Bayes and SVM. - Trained a character-level LSTM model for handwritten text generation.	

CERTIFICATES

TCS Certified — Career Edge Young Professional	Dec 2023
CISCO Certified — Introduction to Data Science	Jan 2024
CISCO Certified — Data Analytics Essentials	Jan 2024
IBM Certified Professional Full Stack Developer	May 2024
Machine Learning Specialization Stanford DeepLearning.AI	Jun 2024
RPA — Robotic Process Automation Certificate	Jan 2025 – Mar 2025

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL, JavaScript, HTML/CSS, R
Frameworks and Packages: React, Node.js, Flask, FastAPI, Pandas, NumPy, Scikit-Learn, TensorFlow, Matplotlib
Developer Tools: Git, Docker, Cloud Platform, VS Code, Visual Studio, PyCharm, Jupyter Notebook, Anti-gravity
